

The Louisville Bats are teaming up with Cystic Fibrosis and The Benefit of Megan Payne to raise money for Megan's double lung transplant next year. Megan is the daughter of Firefighter, Caleb Payne, and Humana associate, Margaret Owens Payne. The Payne's are also members of St. Athanasius parish.

Just purchase a \$7 Bats ticket and enjoy the game. \$2 of every ticket sold will go to Megan's family to offset expenses of the transplant while they are in St. Louis.
